

INVITATION TO THE EUROMETAL STEEL NET FORUM MILANO 10 MAY 2012

Dear colleagues,

together with the hosting national association ASSOFERMET we are pleased to invite you to participate in the Milano Conference which will take place on 10 May 2012 focussing on the Conference motto

EUROPEAN STEEL DISTRIBUTION IN 2012 CHALLENGES AND CHANCES IN A DIFFICULT ECONOMIC FRAMEWORK

and kindly ask you to block the date in your agenda.

As you will see in the attached file, the programme is finalised and almost all speakers are confirmed. We are convinced that the programme will be of considerable interest also for you and look forward to meet you in Milano. Within a few days you will receive a further mailing with details regarding the timetable of the event, location & hotel accommodation information and a registration form.

The event will also find the interest of some of the member companies of the national member associations of EUROMETAL. We are kindly asking you to forward this document to interested member companies. We may add that complete information will also be available on the EUROMETAL website.

Best regards

Georges Kirps & Juergen Nusser
Managing Directors EUROMETAL
